02

MISSION

Our mission is to ensure maximum customer contentment simultaneously granting the future generation an enhanced abode adhering strictly to the environmental friendly practices. With a strong commitment to customers satisfaction and environment friendly practices.

03

VALUE

Synonymous with quality, integrity and honesty, pledges to build on the strict business practices that have been our foundation since 2012. We are committed to enhance or improve the indoor environments of our customers by striving to always improve our services.

Benair has a well established Maintenance Division with fully equipped service teams supervised with service engineers and experienced technicians. Benair undertakes maintenance for all kind of air conditioning projects.

Annual Maintenance Contract

Benair upholds an efficient Annual Maintenance Contract team which undertakes Annual Maintenance Contracts for various malls, commercial, residential and industrial buildings and villas. Benair also provides Periodical Preventive Maintenance and service of Air conditioning units like split, package, ducted split and chillers. Benair has fully equipped fleet of service vehicles with expert technicians readily available 24 hours to meet various complaints and breakdowns

On Call Service Facility

Benair has a competent on call service team dedicated to attend any break down or complaint registered with immediate effect based on the priority of the complaints. Large number of our clients across the emirates of Dubai, S harjah and Abu Dhabi enjoy the proficient and timely services of our annual maintenance contracts as well as our on call services.

Eleven Years of our service in the air conditioning industry has gained us a lot of contented clients to continue to enjoy the benefit of our service contracts.

This division deals with both Pre Insulated and Galvanized Iron Ducts under the supervision of well experienced technicians. The division maintains a 5000 sqft mechanical workshop at Al quoz Industrial area with mechanized modern facilities to cater any type of ducting and fabrication work.

We fabricate GI ducts at our workshop as per customer requirements. All the accessories such as fittings, attachments, components and other goods are manufactured from finest grade of material and cutting edge technology. Our quality controllers check each and every lot on well defined quality parameters to ensure non-combustion, mould resistant and leak proof finish in the end products. Competitively priced the offered range of ducting is also facilitated with sound proofing and high degree insulation

Pre Insulated Duct

Benair Fabricates Pre Insulated duct, the latest technological process which is becoming popular for HVAC industry as it is installed in single fix, eliminating the need for second fix which saves significant time and cost. It is made up of rigid close cell polyisocyanate board /rigid phenolic insulated panels faced by an aluminium foil on both the side.

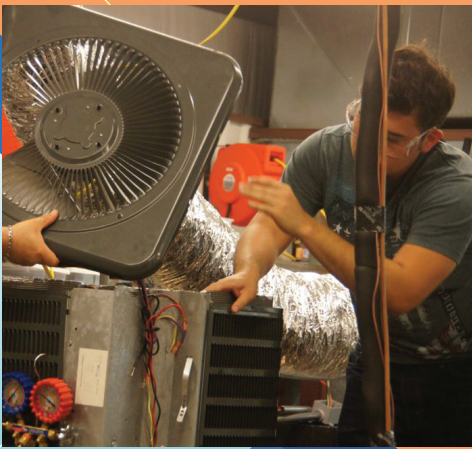

Features

- Lower heat conductivity, higher thermal efficiency
- Low density, light weight
- Foamed with CFC free materials, environment protective
- Hermetic seal ensures little air leakage
- With aluminium foil reinforced on both side its corrosion protective, hygiene and has a beautiful appearance
- Foamed with closed cell structure, its water-proof and sound-insulated
- Easy making, rapid installing and convenient maintenance save cost.
- No protrudent flange on the connections, it can save a lot of building space.
